Medical Product Range

Rockfon® stone wool acoustic ceiling panels engineered to meet strict requirements in healthcare facilities.

Project – Glenfield Hospital in Leicester, UK
Product – Rockfon® Medical™ Plus
Creating a Better Place to Heal

Since healthcare facilities have stricter requirements regarding building materials used, Rockfon Medical range offers the benefits of stone wool to hospitals and other care facilities. Building on the well-known acoustic benefits, fire protection and humidity resistance of stone wool, all tiles in the Rockfon Medical range are aesthetically pleasing, easy to clean and Methicillin Resistant Staphylococcus Aureus (MRSA) resistant. All Rockfon Medical tiles are available with a square lay-in edge. Rockfon® Medical™ Standard and Rockfon® Medical™ Plus tiles also come in a tegular edge plus Rockfon Medical Plus tiles are also available with a concealed X edge.

Knowing that different areas in health facilities have different performance needs, Rockfon offers three types of Rockfon Medical tiles. For areas with essential hygiene and cleaning requirements, such as wards, administration, waiting areas and nursing offices, Rockfon Medical Standard is classified to Bacteriological Class B5 and B10.

As hygiene and disinfection requirements increase – for instance in emergency rooms, delivery rooms, small surgery, radiology, laboratories and corridors – Rockfon suggests Medical Plus (Bacteriological Class B1) for these applications.

Rockfon® Medical™ Air (Bacteriological Class B1 and B5) has an air-tight backing membrane and sealed edges suitable for high-risk areas, such as operating rooms, recovery rooms and intensive care, where air pressure is controlled to prevent the spread of infections.

Rockfon® Medical™ Standard

Features & Benefits
- Fulfills all basic cleaning and hygienic properties for use in health care
- Does not contribute to the growth of MRSA
- Has a low particle emission (ISO Class 5, ISO14644-1) for better air cleanliness
- Excellent sound absorption (NRC = 0.90)
- High fire performance
- High light reflectance (LR = 0.86)
- Available in square lay-in and square tegular

Applications
- Cellular Office
- Reception/Corridor

**Fire Performance**
Surface burning characteristics:
- UL723 (ASTM E84) Flame Spread Index: 0
- Smoke Developed Index (UL Labeled): 0
- CAN/ULC S102 Flame Spread Index: 10
- Smoke Developed Index: 5

**VOC Emissions**
All Rockfon stone wool acoustic solutions are GREENGUARD Gold low VOC certified and meet the State of California’s Department of Public Health Services Standard Practice for Specification Section 01350 (California Section 01350) for testing chemical emissions.

Selected potential applications: LEED, WELL, CHPS, Green Globes, BREEAM Int. and CALGreen.

**Warranty Information**
30-Year Limited Product Warranty. See www.rockfon.com

**Environment**
- Fully recyclable

**Thermal Insulation**
- R Value (BTU Units): 2.2
- RSI Value (Watts Units): 0.39

**Hygiene**
Stone wool provides no sustenance to microorganisms
Microbiological class M1 fulfilling the requirements of Zone 4 (very high risk) defined by NF S 90-351:2013. Tested with:
- Methicillin Resistant Staphylococcus Aureus (MRSA)
- Candida Albicans
- Aspergillus Brasiliensis

**Clean Room**
- ISO Class 5

**Cleaning**
- Vacuum
- Damp cloth
**Rockfon® Medical™ Plus**

**Features & Benefits**
- Can be cleaned with diluted solutions of ammonia, chlorine, quaternary ammonium and hydrogen peroxide
- Does not contribute to the growth of MRSA
- Has a low particle emission (ISO Class 4, ISO14644-1) for better air cleanliness
- The rear side of the panel is covered by a back fleece. The edges are sealed.
- Excellent sound absorption (NRC = 0.90)
- Optimal design freedom due to a large selection of edges (lay-in, tegular and concealed)

**Applications**
- Treatment Room
- Consulting Room
- Ward
- Laboratory

Material
Stone wool (Mineral Wool) ceiling tiles with factory painted glass scrim surface
ASTM E1264 CLASSIFICATION: Type XX - Stone wool base with membrane-faced overlay, Pattern E

Fire Performance
Surface burning characteristics:
- UL723 (ASTM E84) Flame Spread Index: 5
- Smoke Developed Index (UL Labeled): 5
- CAN/ULC S102 Flame Spread Index: 15
- Smoke Developed Index: 5

VOC Emissions
All Rockfon stone wool acoustic solutions are GREENGUARD Gold low VOC certified and meet the State of California’s Department of Public Health Services Standard Practice for Specification Section 01350 (California Section 01350) for testing chemical emissions.

Warranty Information
30-Year Limited Product Warranty. See www.rockfon.com

Environment
- Fully recyclable

Thermal Insulation
- R Value (BTU Units): 3.5
- RSI Value (Watts Units): 0.62

Hygiene
Stone wool provides no sustenance to microorganisms
Microbiological class M1 fulfilling the requirements of Zone 4 (very high risk) defined by NF S 90-351:2013. Tested with:
- Methicillin Resistant Staphylococcus Aureus (MRSA)
- Candida Albicans
- Aspergillus Brasiliensis
The bactericidal and fungicidal effect of dry steam cleaning meets the requirements of NF EN 14561 (> 5 log10) and NF EN 14562 (> 4 log10), meaning the disinfection is very effective.

Air Pressure
Suitable in areas where differential pressure is required to prevent infections from spreading. Due to its high performance membrane and sealed edges, combined with suitable hold down clips (8 clips per 2’ x 2’ tile), it achieves an air leakage rate of less than 0.5m³/h/m²/Pa under a pressure range of 5 to 40 Pa. Rockfon recommends the addition of closed cell neoprene foam tape on the grid system or the use of gasket grid to improve performance in areas where air pressure requirements are more stringent. For more information, please contact customer service.

Surface Durability
Enhanced durability and dirt resistance.
